

5-50L/Min Gas Station Fuel Pump Lubricating Oil Gas Station Dispenser

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Virette

Product Specification

- Register Range: 0.00~999999.99 L
- Delivery Rate: 5 ~ 90L/min; 90~150L/min; 150~250L/min
- Working Pressure: 0.2 MPa
- Automatic Nozzle: TD-20A
- Medium: Lubricating Oil
- Flow Rate: 5-50L/Min Or 5-90L/Min
- Hose: 3/4" 4M
- Warranty: 12 Months
- Highlight: lubricating oil gas station dispenser,
50l/min dispenser gas station,
50l/min gas station dispenser

Product Description

Temperature -40-55C Lubricating Oil Fuel Pump

Product Description:

The Fueling Station Dispenser is designed to handle a variety of fuels, including gasoline, diesel, and lubricating oil. This versatility makes it an essential piece of equipment for fueling stations of all sizes. With a vacuum of 0.04Mpa, the dispenser is capable of delivering fuel at a consistent rate, ensuring that customers receive the correct amount of fuel every time.

The Gasoline Dispensing System is designed to operate in a wide range of temperatures, from -40~55 . This makes it ideal for use in all climates, ensuring that fueling stations can operate year-round without interruption. The system is also designed to handle lubricating oil, which is essential for maintaining the pump and other components, ensuring long-lasting performance and reliability.

The dispenser is easy to use, with intuitive controls that allow customers to select the type of fuel they require and the amount they wish to purchase. The system is also designed to be easy to maintain, with simple and straightforward maintenance procedures that can be performed by trained personnel.

Overall, the Diesel Fuel Dispenser is a reliable and efficient fueling solution that is essential for any fueling station. It is versatile, easy to use, and designed to provide accurate and reliable performance, ensuring that customers can refuel quickly and easily. Whether you operate a small fueling station or a large chain of stations, the Fueling Station Dispenser is an essential piece of equipment that will help keep your business running smoothly.

Features:

Product Name: Fuel Dispenser

Warranty: 12 Months

Working Pressure: 0.2 MPa

Tank: 1000L

Register Range: 0.00~999999.99 L

Flow Rate:

5-50L/Min for Gasoline Dispensing System

5-90L/Min for Diesel Fuel Dispenser

Technical Parameters:

Technical Parameter	Value
Working Pressure	0.2 MPa
Voltage	220VAC
Temperature	-40~55
Flow Rate	5-50L/Min Or 5-90L/Min
Warranty	12 Months
Delivery Rate	5 ~ 90L/min; 90~150L/min; 150~250L/min
Application	Petrol Dispensing Machine, Diesel fuel dispenser, Diesel Fuel Dispenser
Automatic Nozzle	TD-20A
Medium	Lubricating Oil
Hose	3/4" 4M

Applications:

The Virette fuel dispenser is designed to provide a flow rate of 5-50L/Min or 5-90L/Min, depending on the model. This makes them ideal for use in busy fueling stations that require a high flow rate to avoid long queues. The machines are equipped with a single-stage pump, which ensures that fuel is dispensed quickly and efficiently.

The Virette fuel dispenser has a register range of 0.00~999999.99 L, which means that it can accurately measure the amount of fuel dispensed. This feature is essential in ensuring that customers get the correct amount of fuel that they pay for. The machine is also fitted with a 3/4" 4M hose, which makes it easy to dispense fuel into different vehicles, regardless of their size.

The Virette fuel dispenser is perfect for use in various scenarios, including petrol stations, truck stops, and other fueling points. It is designed to work with different types of fuels, including diesel, petrol, and other liquids. The machine is easy to operate and maintain, making it an excellent choice for businesses that want to provide their customers with an efficient and reliable fueling experience.

In conclusion, the Virette fuel dispenser is an excellent product for businesses looking to provide their customers with a fast, efficient, and reliable fueling experience. Its high flow rate, accurate measurement, and easy operation make it an ideal choice for various application occasions and scenarios. Whether you run a petrol station, a truck stop, or any other fueling point, the Virette fuel dispenser is a product that you can trust to provide excellent performance and reliability.

Customization:

Product Packaging:

Dimensions: 50" x 30" x 80"

Weight: 300 lbs

Packing and Shipping:

Materials: Steel, Plastic

Includes: Fuel Dispenser, Hose, Nozzle, Manual

Shipping:

Shipping Method: Freight

Shipping Cost: Calculated at checkout

Shipping Time: 5-7 business days

Shipping Destinations: United States only
