

1000L Fuel Dispensing Station 50L/Min 220VAC Oil Dispensing Equipment

Our Product Introduction

For more products please visit us on refueling-equipment.com

Basic Information

- Place of Origin: China
- Brand Name: Virette

Product Specification

- Working Pressure: 0.2 MPa
- Tank: 1000L
- Flow Rate: 5-50L/Min Or 5-90L/Min
- Delivery Rate: 5 ~ 90L/min; 90~150L/min; 150~250L/min
- Hose: 3/4" 4M
- Temperature: -40~55
- Structure: Single-stage Pump
- Warranty: 12 Months
- Highlight: 1000l fuel dispensing station,
fuel dispensing station 50l/min,
220vac oil dispensing equipment

Product Description

1000L Fuel Dispensing Station With 220V AC Voltage And 50L/Min Flow

Product Description:

Featuring a vacuum of 0.04Mpa, this Fuel Dispenser ensures that fuel is delivered accurately and efficiently. It has a Flow Rate of 5-50L/Min or 5-90L/Min, depending on the specific model. This allows customers to choose the flow rate that is best suited to their needs, ensuring that they get the right amount of fuel every time.

The Fuel Dispenser also comes with a 3/4" 4M hose, making it easy to reach vehicles of all sizes. The hose is durable and long-lasting, ensuring that it will stand up to frequent use. With its high-quality construction and reliable performance, this Fueling Station Dispenser is the perfect choice for any fueling station.

Features:

Product Name: Fuel Dispenser

Register Range: 0.00~999999.99 L

Warranty: 12 Months

Tank: 1000L

Automatic Nozzle: TD-20A

Application: Petro, Diesel Etc

Keywords: Fuel Dispensing Equipment, Gasoline dispenser

Technical Parameters:

Medium	Lubricating Oil
Hose	3/4" 4M
Tank	1000L
Working Pressure	0.2 MPa
Voltage	220VAC
Structure	Single-stage Pump
Product	One Product Or Two Product
Temperature	-40~55
Vacuum	0.04Mpa
Register Range	0.00~999999.99 L

Applications:

Gas Stations:

The most common application of the fuel dispenser is at gas stations. The machine is used to refill vehicles with petrol, diesel, and other fuels. The Virette fuel dispenser is equipped with a 3/4" 4M hose that is long enough to reach the fuel tanks of most vehicles. The machine's 1000L tank capacity ensures that there is enough fuel to serve a large number of customers before the need for a refill.

Construction Sites:

Construction sites usually require a lot of heavy machinery that needs to be fueled. The Virette fuel dispenser can be used to dispense lubricating oil for construction machinery such as excavators, bulldozers, and cranes. The machine's temperature range of -40~55 makes it suitable for use in harsh environments such as construction sites.

Transportation Companies:

Transportation companies that operate a fleet of vehicles can use the Virette fuel dispenser to refuel their vehicles. The machine's 1000L tank capacity and the ability to dispense different types of fuels make it a versatile solution for transportation companies. The fuel dispenser can be installed at the company's fueling station, making it easy for drivers to refill their tanks before embarking on long trips.

Agricultural Farms:

Agricultural farms that have tractors, harvesters, and other farm machinery can use the Virette fuel dispenser to dispense lubricating oil, diesel, and other fuels. The machine's 1000L tank capacity ensures that there is enough fuel to serve the farm machinery throughout the farming season.

As we can see, the Virette Fuel Dispenser is a versatile machine that can be used in various scenarios and occasions. Its 1000L tank capacity, ability to dispense different types of fuels, and temperature range of -40~55 make it a reliable solution for fuel dispensing needs. Whether it's at gas stations, construction sites, transportation companies, or agricultural farms, the Virette fuel dispenser is the ideal machine for fuel dispensing.

Customization:

Packing and Shipping:

Product Packaging:

1 Fuel Dispenser

1 User Manual

1 Nozzle

Shipping:

[Ships within 1-2 business days](#)
[Free Shipping within the United States](#)
[International Shipping available](#)
